I'm fed up. This is litigation that never should have been filed in the first place. It has stifled innovation, severely damaged the economy, and impacted or will impact the majority of technology companies in the USA for decades. Anti-trust laws are in place to protect CONSUMERS not COMPETITORS. Consumers do NOT, and never did, support this legal fiasco. I urge you to put this outrageous waste of taxpayer money to bed. Get it settled and get on with real business.

I am encouraging all of my colleagues to contact you as well.

Sincerely,

T. Ron Davis
